

Hospital Boarding Reservation Information

Thank you for choosing our hospital to board your pet. We provide quality boarding with a personal touch. Every attempt will be made to give each pet individual love and attention during their visit with us.

Client:

Pet(s):

Special instructions:

Feeding Instructions: _____

Medication Instructions: _____

Medical Services: _____

Additional Services and/or Procedures: _____

Vaccinations:

All pets must be up to date on their vaccinations. If the vaccinations were administered at another veterinary hospital, it is the owner's responsibility to provide proof of vaccinations prior to or at the time the pet is admitted for boarding or they will be administered upon admission and charged accordingly.

Boarding animals less than four months of age is not recommended because they may not have developed complete immunity. In the event that this is necessary, additional isolation charges may apply.

Internal/External Parasites:

All pets must be free of parasites, including fleas & ticks. Pets brought in with parasites will require treatment at the owner's expense.

Medical Illness Policy:

One of the advantages of boarding your pet(s) at a Veterinary Hospital is that medical attention is readily available for our guests. If you pet needs medical attention we will call the emergency number that was given to us on admission. If we are unable to contact you, your pet will be treated as we deem necessary, at normal hospital fees. If your pet is currently on medication, please inform the Client Service Representative (CSR).

Personal Belongings:

Leaving personal belongings, such as toys, blankets, bedding, etc., is allowed but discouraged due to sanitation and orderliness requirements. If you have questions about this, please discuss with the admitting CSR. The facility is not responsible for any items if lost or soiled. Collars and leashes may not be left at any time.

Inherent Conditions:

Occasionally pets may develop problems from environmental and dietary changes. Signs may include: vomiting, diarrhea, coughing, sneezing and self-trauma such as scratching or biting their skin. We take great care so that these problems won't occur and we treat our guests promptly, if needed. However, please be aware and understand that these conditions can develop and that the hospital is not financially responsible for these inherent conditions, if they do occur.

In Case of Injury or Illness:

I authorize the use of such anesthesia as you deem advisable and the performance of such surgical or therapeutic procedures as you determine necessary while my pet is in your care. I agree to indemnify and hold you harmless from and against all liability arising out of the performance of any of the procedures referred to above.

Emergency Person: _____ Emergency Phone Number: _____

I certify that I have read and understand the boarding policies and information provided on this form. Additionally, I am the owner/guardian of the above named pet and have the authority to execute this consent and authorize the procedures listed above.
